

EDM

North American
EDM Supplies, Inc.

This is what customers say about North American EDM Suppliers!

"You have that in stock!!" or "You guys sure know a lot about what you sell" or our favorite "I was concerned about the quality because the price was so low, but you sold me the same one as I received from the factory!"

North American EDM Suppliers, Inc. is the leader in the distribution of consumables for Wire and Conventional (Sinker) EDM machines. Our business started in 1979 as an engineering company providing technical support to machine tool builders and their service/applications personnel. Our knowledge of product application and usage is unparalleled and our technical expertise is unmatched in the industry! Call us today and find out why we provide our customers with a higher level of customer service.

EDM Wires

EDM manufactures several different types of wires including Hitachi, Gisco, Ken-Tron, ProSource & Cutwise. All wires are available in Plain Brass, Coated Wire, Moly/Tungsten Wires, Performance Wires & Charmille Type Wires.

EDM Filters

EDM manufactures filters for all machines including Wire, Conventional & EDM Driller machines. We also stock MANN, FRAM, EBBCO, FANUC Sub-Micron and the Super High Performance Factory Filters for Mitsubishi, Sodick, Fanuc & Japax.

EDM Driller

EDM maintains a huge selection of Precision Driller tubes in Copper and Brass. We stock tubes as small as 0.1mm (0.00393") and in 12" and 16" lengths. These high precision Single Hole and Multi-Channel (KorLess) tubes are offered at rock bottom prices!

EDM Flush Nozzles

EDM maintains a large inventory of the wear components and Flush Nozzles for every machine including power feeds, wear parts, dimaond guides and ceramic nozzles.

EDM Graphites & Oils

EDM can fill all your oil requirements. We distribute ProSource, Commonwealth & Rustick oils. We are a full service graphite supplier offering general purpose to full synetic oils. We offer blocks to plates to blanks to fabricated electrodes to POCO's and most major brands of graphite.
